Matching Grant For Sielmat Hospital

For more than 45 years, the Sielmat Christian Hospital, a ministry of Bibles For The World in Manipur, India, has been ministering to the physical *and* spiritual needs of the people in this remote region. But damage from floods as well as the steadily growing need for quality medical care in the area, have necessitated a major rebuilding and expansion of the hospital. The old building was demolished and a new wing built, all without suspending care to the patients. However there is still significant work to be done.

God has now laid it upon the hearts of some special friends of BFTW to offer a \$50,000 matching grant. This means that, through the end of May, every donation for the expansion of this vital medical facility will be doubled. We are eager to take full advantage of this opportunity to complete a first rate facility for the people of Manipur. As we minister to medical needs in the name of Jesus Christ, souls as well as bodies will know the healing of our Savior.
